The papers report a lower temperature in Oklahoma Monday morning than in British Columbia. At the same time it was warmer in the Rocky mountains than in New Orleans.

It is said there are three Missouri Republicans who aspire to be the nominee of their party for vice-president this year, namely Ex Governor Stanard, Maj. Wm. Warner and Webster Davis.

SINCE so many Democratic editors have told the Republic who is who for governor in their respective portions of this great commonwealth, there is a great churning into the Dockery band wagon. We were satisfied this would be the case, but it is coming a little sooner than we expected.

WHEN the Philippine question was being discussed in the U. S. senate, Senator Vest, though old and rather feeble, could not let the occasion pass without showing where he stood as opposed to the imperial policy of the administration. When he warmed up to his subject he showed very clearly that he had not lost all of his old-time fire and enthusiasm.

CAPT. W. H. BALTHUS, senior editor of the Huntsville Herald, declines being a candidate for the legislature. We don't blame him. We suppose he feels about it something like General Mitchell, father of Mrs. Dick Bland. We inquired of him whether he was not a member of the legislature, when he replied rather indignantly: "No, thank the Lord, I have never been that low yet."

MISSOURI and Nebraska are lawing in the U. S. court at Omaha over 16,000 acres of valuable land recently turned into Atchison county, Mo., by a change in the Missouri river, detaching it from Nemaha county, Nebraska. Iowa had a similar suit against Nebraska a few years since for a less amount of land which was decided in favor of the plaintiff.

SMALL-POX is reported as being very prevalent in 35 counties of Kentucky. The county boards of health are without money to combat the disease, and as a result they are resigning and leaving the suffering people to shift for themselves as best they can. If the scourge of small-pox should bring the people of the state to their senses and thus persuade them to quit butchering each other, it may prove a blessing in disguise.

MISSOURI congressmen, or at least the Democratic portion of them, have fought the single gold standard bill with a zeal worthy a good cause. Most of them have made speeches against it that would have done credit to a Clay or Webster, but without avail so far as defeating the measure is concerned. All they have said or done against it came about as near turning a Republican majority in its favor as pouring water on a duck's back would come to drowning the quacker.

It seems a little out of place that near the beginning of the 20th century of the Christian era two of the most enlightened and nearest christianized nations of the earth should be engaged in a relentless warfare against a weak people, whose chief offense is a desire to be a free people and exercise the rights of self-government. Having received the royal proclamation, "Peace on earth to men of good will," a professed Christian people cannot be the aggressors in a murderous war and hold fast their profession. Christianity and hatred of our fellows cannot dwell together.

A HALF dozen or more robbers had planned to rob a Missouri Pacific train last Sunday night, near Holden, who were betrayed by a girl at Holden who had come into possession of their secret. The girl was displeased at the conduct of some of the would-be robbers and disclosed their secret to be revenged. Detectives were put on their track, when it was discovered the robbery had been put off until Sunday night. Officers were sent to raid the house where the robbers were supposed to be stopping. Instead of two of the robbers being there, as was supposed, there were six or eight, all but one of whom made their escape, after having severely wounded a detective named Jackson of Sedalia. A posse with blood hounds was put on the track of the robbers with a fair prospect of catching them.

In the Fifty-fifth congress, Champ Clark of Missouri delivered a speech on "The Country Editor," which had a wider circulation than any other speech ever delivered in the house of representatives. He further demonstrated his friendliness to the country press by offering an amendment to the post-office appropriation bill to take the government out of the business of printing business cards and other advertising matter on envelopes. A. J. Hopkins of Illinois, who was in the chair at the time, ruled the amendment out of order, on the ground that it was new legislation. Now, Mr. Clark has prepared a bill embodying the idea contained in his amendment and will use his utmost endeavors to have it enacted into law, which will be a good thing for country newspapers throughout the land. Mr. Clark's interest in the matter perhaps originated in the fact that when a very young man he was a country editor himself. Early impressions are never effaced.

THE shooting of Goebel in Kentucky by some adherent of Taylor, the contestee in the gubernatorial contest, has been followed by a high-handed outrage on the part of the acting governor. Tuesday morning he issued a proclamation adjourning the legislature from Frankfort to London, one of the mountain towns of the state on the Louisville and Nashville railroad 100 miles from Frankfort, where Democratic members of the legislature say their lives would be in danger and where they will not go. Following the proclamation of the acting governor, militia were put on guard in the legislative halls and the Democrats were not permitted to meet. They then tried to get into the court-house, the opera house and the hotel, but the soldiers on guard beat them to every one of these buildings, refused to let them in and finally were notified by the militia that if they held a meeting they would be arrested and locked up. Of course there is great excitement and there is no telling what a day may bring forth. It is the first instance in the history of this country where one co-ordinate branch of a state government has, with a strong arm of military power, arbitrarily dissolved another branch while in session at the place where the law directs, and ordered it to convene elsewhere.

#### The People or the Trusts?

The following is the copy of a bill introduced in congress by Hon. J. T. Lloyd of the First Missouri district. If it should become a law the trusts will speedily let go their villainous grip on the throats of the people and such a tumbling of prices as was never known in these parts before would speedily follow: "Be it enacted by the senate and house of representatives of the United States of America in congress assembled, that all articles of manufacture of every kind or character shall be placed on the free list where the manufacturers thereof shall combine or enter into agreement whereby the price of the article manufactured may be fixed or whereby organization into trusts or other associations for the purpose of controlling the price of any manufactured product may be controlled."

**NEW TOMATO FOR 1900**

**LIVIN STON'S MAGNUS**

This very distinct and most promising new variety, of the color of heavy and acme, is the latest addition by Livingston to the Tomato family. It is thicker, heavier and more solid than either of the above making it easily the most handsome sort in cultivation. The form is perfect, uniform, large and attractive. Flesh very firm. It is a robust grower, with short points, setting its fruit clusters closer together than most varieties, and is therefore a heavy cropper. It is especially adapted for shipping and is remarkably fine for forcing indoors and out. Order at once.

Per pkt., 20c; 3 pkts., 50c; 7 pkts., \$1.00. Elegantly Ill. Seed Annual Free with orders.

## Nervous People

That Dr. Williams' Pink Pills for Pale People have cured obstinate cases of locomotor ataxia, partial paralysis, and St. Vitus' dance, is the best evidence that they will cure all lesser nervous disorders, because the principle in the treatment of all nervous diseases is the same. Nervousness is a question of nutrition. Food for the nerves is what is needed and the best nerve food in the world is

### Dr. Williams' Pink Pills for Pale People

Mrs. Annie H. Moore, of Port Austin, Michigan, says: "My daughter, Jean, was always a delicate child, had stomach trouble, nervous debility and general weakness. She had to be taken out of school and kept from all study for nearly five years. About three years ago she began taking Dr. Williams' Pink Pills for Pale People, and I am happy to say they have helped her to become a healthy, happy girl who no longer needs medicine of any kind. It scarcely seems possible she can be the same one who a few years ago was a delicate, almost a hopeless, sufferer."

Dr. Williams' Pink Pills for Pale People contain, in a condensed form, all the elements necessary to give new life and richness to the blood, and restore shattered nerves. They are an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' Dance, sciatica, neuralgia, rheumatism, nervous headache, the after-effects of the grip, palpitation of the heart, pale and sallow complexions, all forms of weakness either in male or female.

Dr. Williams' Pink Pills for Pale People are sold by all dealers, or will be sent, postpaid, on receipt of price, 50c, a box or six boxes for \$2.50 (they are never sold in bulk or by the 100) by addressing Dr. Williams Medicine Company, Schenectady, N. Y.
